Education

2025 – Jun 2027 **Bachelor of Science in Computer Science**, *University of California, San Diego*, San Diego, CA

Expected Graduation: June 2027

2023 – 2025 **Associate of Science in Computer Science**, *Laney College*, Oakland, CA

Profile

Computer Science junior with strong Python programming background, hands-on project experience, and interest in AI development. Comfortable working in fast-paced, experimental environments, iterating on prototypes, and collaborating on research-driven projects.

Projects

2025 **HTML to ePub Converter**, *Personal Project*

- Engineered a full workflow to convert large HTML documents into ePub format, including parsing, metadata handling, and error recovery.
- Designed modular components enabling rapid prototyping, iteration, and experimentation with different conversion strategies.
- Processed and organized real-world data sources, building scripts to clean and structure unformatted content.

2024 **Home Assistant Presence Plugin**, *Personal Project*

- Developed Python-based presence detection plugin integrating RESTful APIs and event-driven automation workflows.
- Implemented data processing logic for sensor streams to infer room occupancy in real time.
- Documented experiments, configurations, and performance observations to guide future improvements.

2023 **Java Snake Game**, *Personal Project*

- Built a console-based interactive Snake game using object-oriented Java.
- Implemented movement logic, collision detection, and scoring mechanics with emphasis on clean, maintainable code.
- Used Git for iterative development and version control on an evolving experimental codebase.

Skills

Programming **Python**, Java, C++, C

Data / Workflow Data processing, scripting, automation, prototyping workflows

Concepts Algorithms, Data Structures, Object-Oriented Design, Software Testing, Debugging

Tools Git, Docker, VS Code, Linux

Interests AI development, experimental coding, research-driven projects

Activities

2025–Present Member, UCSD Envision Makerspace

2024–2025 Computer Consultant, Oakland Public Library - Elmhurst Branch

Supported community members with computer troubleshooting and taught basic software skills.

2024 Tutor, Community Technology Network

Provided one-on-one digital literacy tutoring to adults, including basic computer and internet usage.

2024 Member, Laney College MESA Program
