Education

2025 – Jun 2028 **Bachelor of Science in Computer Science**, *University of California, San Diego*, San Diego, CA

Expected Graduation: June 2028

Relevant Coursework: Advanced Data Structures, Design and Analysis of Algorithms, Systems Programming, Computer Organization, Machine Learning

2023 – 2025 **Associate of Science in Computer Science**, *Laney College*, Oakland, CA

Projects

2026 **Quotaquarium**, *Personal Project*

- Built an end-to-end C++ product that turns live quota data from multiple authenticated accounts into an interactive experience with reset windows, configurable alerts, and touch controls.
- Designed concurrent API workers, adaptive HTTPS polling, and rate-limit-aware scheduling; added memory-efficient rendering, bounded structured logging, and runtime diagnostics for responsive, reliable operation.

2025 **HTML to ePub Converter**, *Personal Project*

- Engineered a Python content-processing pipeline with modular HTML parsing, metadata embedding, and structured error handling for reliable ePub generation.

2024 **Home Assistant Presence Plugin**, *Personal Project*

- Built a Python Home Assistant integration that converts entry and exit sensor events into real-time room-occupancy state.
- Designed an event-driven REST API workflow with explicit state transitions for reliable smart-lighting automation and faster debugging.

Skills

Programming C++, Python, Java, C

Product Systems REST APIs, HTTPS, authentication, event-driven architecture, concurrency, rate limiting, structured logging

Engineering Data Structures, Algorithms, Object-Oriented Design, Design Patterns, Software Testing, Debugging

Tools Git, Docker, Linux, VS Code

AI Tooling Codex-assisted implementation, refactoring, debugging, code validation, and technical documentation

Experience

2024–2025 Computer Consultant, Oakland Public Library - Elmhurst Branch

Diagnosed computer and software issues for community members and translated technical solutions into clear guidance.

2024 Tutor, CTN (Community Technology Network)

Provided one-on-one tutoring to help adults improve digital literacy skills, including computer operation and internet usage.
