Education

2025 – Jun 2028 **Bachelor of Science in Computer Science**, *University of California, San Diego*, San Diego, CA

Expected Graduation: June 2028

Relevant Coursework: Advanced Data Structures, Design and Analysis of Algorithms, Computer Organization, Machine Learning, Systems Programming

2023 – 2025 **Associate of Science in Computer Science**, *Laney College*, Oakland, CA

Projects

2026 **Quotaquarium**, *Personal Project*

- Built a C++ client that ingests and visualizes live quota data across multiple accounts, including authenticated API access, reset windows, configurable alerts, and interactive controls.
- Engineered concurrent workers, adaptive HTTPS polling, and rate-limit-aware scheduling; added memory-efficient rendering, bounded structured logging, and runtime diagnostics to improve responsiveness and reliability.

2025 **HTML to ePub Converter**, *Personal Project*

- Engineered a converter to transform HTML content into ePub format, implementing scalable parsing and metadata embedding.
- Enhanced reliability and efficiency through structured error handling and modular component design.

2024 **Home Assistant Presence Plugin**, *Personal Project*

- Built a Python-based Home Assistant integration that derives real-time room occupancy from entry and exit sensor events.
- Designed an event-driven REST API pipeline for reliable smart-lighting automation and easier debugging of state transitions.

Skills

Programming C++, Python, Java, C

Engineering Data Structures, Algorithms, Object-Oriented Design, Design Patterns, Software Testing, Debugging

Systems Linux, Docker, Git, REST APIs, HTTPS, concurrent and event-driven systems, structured logging

AI Tooling Codex-assisted implementation, refactoring, debugging, code validation, and technical documentation

Activities

2024–2025 Computer Consultant, Oakland Public Library - Elmhurst Branch

Supported community members with computer troubleshooting and taught basic software skills.

2024 Tutor, CTN (Community Technology Network)

Provided one-on-one tutoring to help adults improve digital literacy skills, including computer operation and internet usage.
