Education

2025 – Jun 2028 **Bachelor of Science in Computer Science**, *University of California, San Diego*, San Diego, CA
Expected Graduation: June 2028; GPA: 4.0/4.0
Relevant Coursework: Systems Programming, Computer Organization, Advanced Data Structures, Design and Analysis of Algorithms

2023 – 2025 **Associate of Science in Computer Science**, *Laney College*, Oakland, CA

Projects

2026 **Quotaquarium [App Store] [GitHub]**, *Personal Project*
- Shipped a native SwiftUI product for iPhone and Apple Watch to the App Store, owning implementation, testing, release compliance, and production delivery.
- Built multi-account monitoring and reminder features with URLSession, Keychain, WatchConnectivity, background refresh, and WidgetKit; added cached state and structured diagnostics for reliable operation.
- Extended the product to ESP32-S3 in C++/FreeRTOS with concurrent network workers, adaptive HTTPS polling, a touch interface, and bounded persistent logs.

2025 **HTML to ePub Converter**, *Personal Project*
- Built a Python processing pipeline that parses HTML and XML, validates document structure, embeds metadata, and produces standards-compliant ePub files.
- Improved correctness and maintainability through modular transformations, explicit error handling, and repeatable output validation.

2024 **Home Assistant Presence Plugin**, *Personal Project*
- Built a Python integration that models room occupancy from entry and exit sensor events and exposes real-time state for home automation.
- Designed an event-driven REST workflow with explicit state transitions to support testing, debugging, and reliable smart-lighting behavior.

Skills

Programming	Swift, Python, C++, Java, C
Mobile & Web	SwiftUI, watchOS, WidgetKit, WatchConnectivity, HTML, CSS
Backend	REST APIs, HTTPS, JSON, XML, caching, concurrency, event-driven systems
Engineering	Algorithms, data structures, object-oriented design, unit and integration testing, debugging
AI Development	Codex-assisted codebase exploration, implementation, refactoring, debugging, and verification
Tools	Git, Docker, Linux, PlatformIO, Xcode, VS Code

Activities

2024–2025 Computer Consultant, Oakland Public Library - Elmhurst Branch
Supported community members with computer troubleshooting and taught basic software skills.
